Montagu Private Equity

Montagu is an independent European private equity investor, backing management buyouts and acquisitions in a wide range of businesses and other private equity deals across a number of sectors. They focus on deals typically between €75 million and €800 million, but with capacity to go larger through co-investment arrangements.

Montagu operate through offices in London, Manchester, Paris, Düsseldorf and Stockholm.

Our client said:

“Right from the beginning we felt your team connected with ours on many levels. You always listened to what we needed then combined this with strong creativity and communication. The bonus was finishing 2 weeks ahead of plan which enabled us to have a seamless relocation to our fantastic new office.”

Cathy Clifford, Human Resources Director

Main Building

Waiting Area

Client Meeting Room

This stunning Norman Foster building is flooded with light and has wonderful views across the River Thames. It was essential that the interior design scheme did not compromise these attributes, despite the large number of offices required. Extensive glazing was used in combination with lightly scaled furniture to maintain a sense of openness. Clean, crisp lines carry through to the Reception/ Waiting Area. Client Meeting Rooms were given a more 'solid' feel by using a darker colour palette in combination with feature ceilings, lighting and artwork.

Our Clients Advisor said:

"Montagu's lease had expired so it was critical that we completed this project on time. We selected The Interiors Group based on their understanding and empathy with our team plus our knowledge of their track record and quality of work. Their professional team was exceptional in delivering this high quality office ahead of schedule and on budget."

Nik Denman, DTZ - Associate Director
